

# FlashPDF

Software for FlashLink CT, CTX, BioLogger and -80C Dry Ice Loggers

FlashPDF is a simple program used to create a locked PDF file with data downloaded from any FlashLink data logger. Once installed on a Windows PC, the program runs automatically when a logger is connected via the USB adapter. The PDF is then created, saved, and displayed on screen automatically. These PDF files can easily be archived and emailed.

- Easy to install on a Windows PC
- Program runs automatically when logger is connected
- PDF created and stored automatically on the PC
- Locked PDF file is ideal for security and regulatory compliance including FDA 21 CFR Part 11
- Presents data in an easy to read format
